Collection of different skins collected from different sites and compiled into 1 zip file

(I Believe most of these are from [SkinZTones](#))

To read up on more about skins go to the tutorial section of the site

[Tutorial Section Link](#)

[edit] I tried to add it as an attachment but it kept stating invalid token

when uploading??? So added link instead.[/edit]

[edit] Over a year later i thought i would give it another try at uploading and success.[/edit]
